

Are You Ready To Partner with a 3PL?

If you're considering partnering with a 3PL to fulfill your orders, take this ten-question readiness assessment.

Give yourself one point for every statement that applies to your business.

- ☐ You're shipping more than 100 orders per month.
- ☐ Packing and shipping orders takes more than two hours per day.
- ☐ You're running out of storage space.
- ☐ Order errors are increasing.
- ☐ Shipping costs are rising.
- ☐ Customers expect faster delivery.
- ☐ Inventory management is becoming difficult, especially during seasonal spikes in demand.
- ☐ You're avoiding vacations because no one can ship orders.
- ☐ You're expanding to additional sales channels.
- ☐ You'd rather spend time growing the business than packing boxes.

Score	Readiness
0-3	Keep self-fulfilling for now
4-6	Time to begin evaluating 3PL options
7+	You're likely losing more money by waiting than by outsourcing.

If you scored a 4 or higher, [click here](#) to schedule a conversation with our team today.
